Qty	Description	Total Output	Fuel	Unit Price	Total Price
1	<p>Combined Dirt and Air Separator CVAD-65 (DN65 PN16). Maximum working pressure 10bar. 10 micron particle removal. Factory assembled with flushing valve, purge valve and automatic air vent.</p> <p>Availability: Ex Stock allow 7-10 working days from receipt of order.</p> <p>When ordered with a Fleet Condensing Boiler the Dirt and Air Separator will receive a preferential 23% discount from the quoted price.</p>			£972.00	£972.00
1	<p>Chemical Dosing Pot DP5 (5 litre capacity). Maximum working pressure 14 bar. Factory assembled with inlet, outlet, drain and air purge valves and filling funnel Complete with wall brackets.</p> <p>Availability: Ex Stock allow 7-10 working days from receipt of order.</p> <p>When ordered with a Fleet Condensing Boiler the Dosing Pot will receive a preferential 23% discount from the quoted price.</p>			£262.00	£262.00
1	<p>Water heater. Dorchester DR-FC Evo 80 condensing. Natural Gas modulating pre-mix low NOx burner. Room sealed and open flue connection. Digital control panel. Electric anode protection.</p> <p>1615 l/h @ 44°C temperature rise, 504 litres storage.</p> <p>Availability: please allow between 2-4 weeks from receipt of order</p>	1,615 l/h	Nat Gas	£6,323.00	£6,323.00
1	<p>Water heater unvented supply kit Unvented supply kit, 1 inch diameter including strainer, pressure reducing valve, non return valve, expansion relief valve, 1 x 24 litre expansion vessels and temperature pressure relief valve.</p>			£548.00	£548.00
1	<p>Hamworthy Product Commissioning.</p> <p>For boilers & water heater</p>			£542.00	£542.00

PRODUCT INFORMATION:

For flue selection and pricing, please see enclosed pricing schedule and order form for Fleet boilers and Dorchester water heaters.

We have provided this quotation as requested, without a specification having been received from your company. Hamworthy Heating is not liable for errors that may occur should the equipment be subsequently ordered.

Commissioning

Hamworthy commissioning upgrades the standard warranty to 24 months parts AND LABOUR from the DATE OF COMMISSIONING (when ordered at the same time as the product(s), up to a maximum of six months from date of delivery). For full details and to arrange commissioning please call our Service Team tel: 0845 450 2866. Please allow 7 to 10 days notice for the required commissioning date.

Commissioning rates quoted are based on all equipment and relevant services together with the full system load being available at the time of the visit. Charges for dual fuel burners assume that commissioning of both fuels takes place in one continuous procedure.

Delivery

The availability quoted is from receipt of order for standard delivery only and is dependent on stock levels at that time, where multiple products are required standard delivery lead times may be extended. Standard delivery is using a tail lift vehicle and delivery is to ground level only, location in final position is not included. Please note: specific delivery arrangements will be advised for Biomass and Steel Shell products where the use of a tail lift would not be possible.

Special delivery arrangements can be accommodated, please call customer services tel: 0845 450 2865 for full details.

Scope of supply

This quotation covers the supply only of main plant items and specifically excludes installation and the supply of gauges, isolation valves and pressure relief valves (other than those included in proprietary unvented systems and manifolds kits where quoted).

All prices are based upon delivery to UK Mainland only (Ex VAT). Hamworthy Heating Ltd. terms and conditions apply.

Where oil fired products are quoted oil burners will be supplied for 35 Sec fuel oil, for any variation, please call our Technical help desk on 0845 450 2865. Oil filters are not supplied with the burner.

Payment Terms: Pending
